Best Regards,

Prijanto Hari Poernomo
Director

ABOUT US

Established in July 2005, PT. Trimitra Sejati Jaya starting as a Water Based Glue Manufacturer with PT. Bersama Lemindo Abadi as a partner. To address the demands of various industries, our product YONA BOND, YONA PRESS as trade mark. Due to continuous satisfaction and incredible support from our customers, we have succeeded in developing along with technology so that we can produce new products YONA MELT, and INDOPRESS.

OUR VISION

To become one of the companies operating in the field of Glue/Adhesive that is reliable, trusted and leading in Indonesia.

- Work hard to create opportunities and growth to become the best company.
- Become a reliable and trusted business partner.
- Become a place for employees to achieve and develop themselves.
- Become a valuable asset and make society, nation and state proud.
- Optimize the use of raw materials using superior local domestic products without relying on procurement of raw materials from abroad with the development of internal research and development.

OUR MISSION

OUR GOALS

Establishing a sustainable economic chain is our goal, achieved through the delivery of excellent production and service.

ABOUT TECHNOLOGY

Aligned with our vision and mission, we acknowledge the significance of technological support in all our endeavors. We have integrated this concept with the fundamental principles of ecological responsibility, extending from our factory operations to the entire network through which our products reach every community.

RESEARCH & DEVELOPMENT

We firmly believe that every customers are our most crucial partners as a main role in shaping our success. Our dedicated research and development specialists work in modern, well-equipped laboratories, consistently striving for innovation to present improved and newly developed products.

THE FACTORY

Our commitment to ensuring product quality and customer satisfaction hinges on the right investment, flawless handling, and a comprehensive production process.

These elements collectively hold the utmost significance in our pursuit of excellence.
